

MUHAMMED AHMET AKKOYUN

Computer Engineer

PROFILE

Experienced backend developer with a strong background in computer science. Proficient in C#, Java and Node.js. Led development of multiple high-profile projects and known for delivering quality code on time. Always learning and staying up-to-date on the latest industry developments.

SKILLS

- C#
- .NET / .NET Core
- Node.js / Express.js
- OOP
- SOLID
- Multi - Layered Architecture
- CI/CD
- Elastic Search
- Rabbit MQ
- Entity Framework
- SQL / NoSQL
- Stored Procedure / Functions
- Docker
- PHP / Laravel
- Project Management
- Team Player
- Resilient Person

EXPERIENCE

Figensoft

Software Developer | July 2022 - Present

- Worked as a backend developer, with experience in .NET and .NET Core backend development using microservice architecture
- Proficient in DB first development using SQL, including experience with stored procedures, functions, triggers, and views
- Developed and maintained APIs for various applications
- Implemented best practices for security, performance, and scalability in all projects
- Experienced in DevOps, including the use of technologies such as Docker, RabbitMQ, and Elasticsearch to automate and streamline development and deployment processes
- Involved in the development of large and scalable projects, with a focus on reliability and high availability

Leverage Software Solutions

Software Developer | July 2021 - July 2022

- Played a key role in backend development for multiple projects
- Created complex database structures and implemented efficient data management practices
- Proficient in .NET and .NET Core with experience using versions 4 and above
- Utilized a layered architecture approach to design scalable and maintainable software systems
- Demonstrated skills in frontend development and able to work on full-stack projects
- Managed full project development from conception to deployment, including project planning and team coordination

Orbit Energy

Hardware Intern | May 2021 - June 2021

- Worked as a hardware intern, conducting research on battery management systems
- Wrote an article summarizing the findings of your research and discussing the importance of effective battery management in various applications
- Gained hands-on experience with hardware and electronics principles, including circuit design and testing
- Developed strong analytical and problem-solving skills through the research and writing process

EDUCATION

DOKUZ EYLUL UNIVERSITY

Computer Engineering Bachelor's Degree
